

Those who succeed in making the summit will be greeted with breathtaking views including the opportunity to glimpse the majestic King of the Birds sailing high above.

Economic Opportunities Await!

The Kandarin City Council and Chamber of Commerce is ready to welcome the can-do spirit of our visitors. Beyond the many great sporting opportunities our region is known for we are also rich in other natural resources awaiting the diligent and enterprising adventurer!

Ore outcroppings of **Tin, Iron, Copper,** and **Clay** can all be found near the colony entrance and within easy reach of the nearby **bank** and **furnace!**

The avid woodsman will also find several well populated groves of **evergreen, oak,** and even the celebrated **yew tree** available for harvest.

*Yew tree
(Taxus baccata)*

Getting Here!

The Piscatoris Fishing Colony and Hunting Area is easily accessible via the **Fairy Ring** network code "AKQ", by a short journey northwest from **Ardougne** or via the travel facilities offered in the nearby **Gnome Tree Stronghold**.

With so many opportunities for adventure and business the Piscatoris Fishing Colony and Hunting Area is simply a destination that cannot be missed! We look forward to seeing you on our shores or in our fields soon!

Entrance to the PISCATORIS FISHING COLONY AND HUNTING AREA is provided to the visitor at their Own Risk!

Use of Kandarin Park Service trails, facilities, and resources is entirely at the risk of the visitor.

By ignoring any warnings or notices, where posted, expressed or communicated by personnel, guides or other means the visitor absolves the Kandarin Park Service, Ardougne City Council and King Thoros of East Ardougne of any liability in the event of injury or loss.

PISCATORIS

Fishing & Colony Hunting Area

EAGLES' PEAK OVERLOOK

FIRST CATCH OF THE DAY

A
LIFETIME OF
MEMORIES
WAITING TO
BE HAD!

Tired of the rat race?

Had your fill of crowded banks and even more crowded dungeons?

Nestled in the far northwestern reaches of the Kandarín Kingdom, the Piscatoris area is your destination for outdoor relaxation!

1

Come join us at the northern tip where the **PISCATORIS FISHING COLONY** proudly boasts the only known source for the much sought-after **Monkfish!** There are also plenty of opportunities to try your hand at catching **Tuna** and **Swordfish.** The colony also boasts an easily accessible bank, cooking facilities, and even a furnace for your convenience.

2

The famous **PISCATORIS HUNTING AREAS** await you just south of the colony's doors!

Our wildlife includes many varieties of Kabbit including **Common, Razorback, Wild** and **Prickly.**

Prickly kabbit

Put your woods lore to the test while netting, tracking, dead fall and box trapping, and snaring.

Our area also serves as host to a variety of other game for those up to the challenge.

The **Ruby Harvest**

butterfly can be found in abundance in our fields. Requiring a net and jar, this specimen is often hunted in conjunction with our other game.

Ruby harvest

Ferret

The **Ferret** can be found in our more southern areas, often near the camping area just north of the mountains. Caught with a box trap, they help in the pursuit

of the elusive **White Rabbit.***

The **Chinchompa** wander our woodlands in droves. Once caught with a box trap, they provide utility as a ranged weapon.

Chinchompa

Copper longtail

The beautifully plumed **Copper longtail** also makes a presence in our fields. These can be caught while other game are pursued as they often inhabit the same areas.

**Rabbit snaring requires special permission of The Ardougne Zoo. For details please contact Charlie the zoo keeper near the scorpion cage at that institution.*

3

The **Falconry Center**

Piscatoris is proud to be the exclusive host for the art of the hunt traditionally known as "*The Sport of Kings,*" **Falconry!**

In our state-of-the-art training center visitors are guided by our renowned expert, Matthias, on the care and use of the **Gyr Falcon.** Thrill as you direct this apex predator in the pursuit of its elusive kabbit prey! Our training grounds are well stocked with the Spotted, Dark, and Dashing kabbit. Qualified hunters will find the pelts they gather to be highly sought after by the most exclusive clothiers.

4

Eagles' Peak Observation Area

The rugged cliffs of Eagles' Peak offer one of our most celebrated opportunities to our south.
